Reason for Allowance

1. Claims 1-20 are allowed over prior art.
2. The following is an examiner's statement of reasons for allowance: As indicated in the previous office action claim 1-18 and 20 contain allowable subject matter. Applicant has amended claim 19 to correct the previously 101 rejection.

Although the prior art discloses utilizing scheduling in a communication system, wherein time slots are managed by a time slot table, they fail to teach or suggest with respect to claims 1, 6, 18 and 19, priority element determines an initial transmission priority for transmission elements of the group by designating a given transmission element as a current high priority transmission element, with the other transmission elements in the group being arranged in a linear order of decreasing priority relative to the current high priority transmission element.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Prenell P. Jones whose telephone number is 571-272-3180. The examiner can normally be reached on 9:00-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chi Pham can be reached on 571-272-3179. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
